- establish a sustainable network of all Cities along the Danube river
- create **Common Wealth** for the Cities and their Conurbations
- implement pilot projects in key areas
 - Tourism
 - Culture
 - Economy
 - Infrastructure & Ports

- A network of cities which provides sound solutions to similar problems with the greatest possible benefit for all participating cities and regions along the Danube has been created.
- The goal is to establish DONAUHANSE as a sustainable engine for economic, tourist, infrastructural and cultural co-operation in Europe, beyond the current borders of the European Union.

- **The objectives**
 - Intensification and extension of the co-operation between the Danube cities
 - Continuation and expansion of the information and communication platform as an integrational link
 - Support of the establishment and further development of the chartering initiative and promotion of further project ideas to sustainably increase freight volumes carried on the Danube – combined with the necessary infrastructure development measures
 - Further development and realisation of the pilot projects and project ideas created under the DONAUHANSE project to promote and ensure the sustainable development of tourism.

- **Information and Communication platform**

- **Registered trademark DonauHanse®**
- **Workshops**
 - sub regional planning, project management
 - topics requested by Doha cities
- **Common projects**
 - based on the DonauHanse-resolution

The goal of

Destination Danube

is

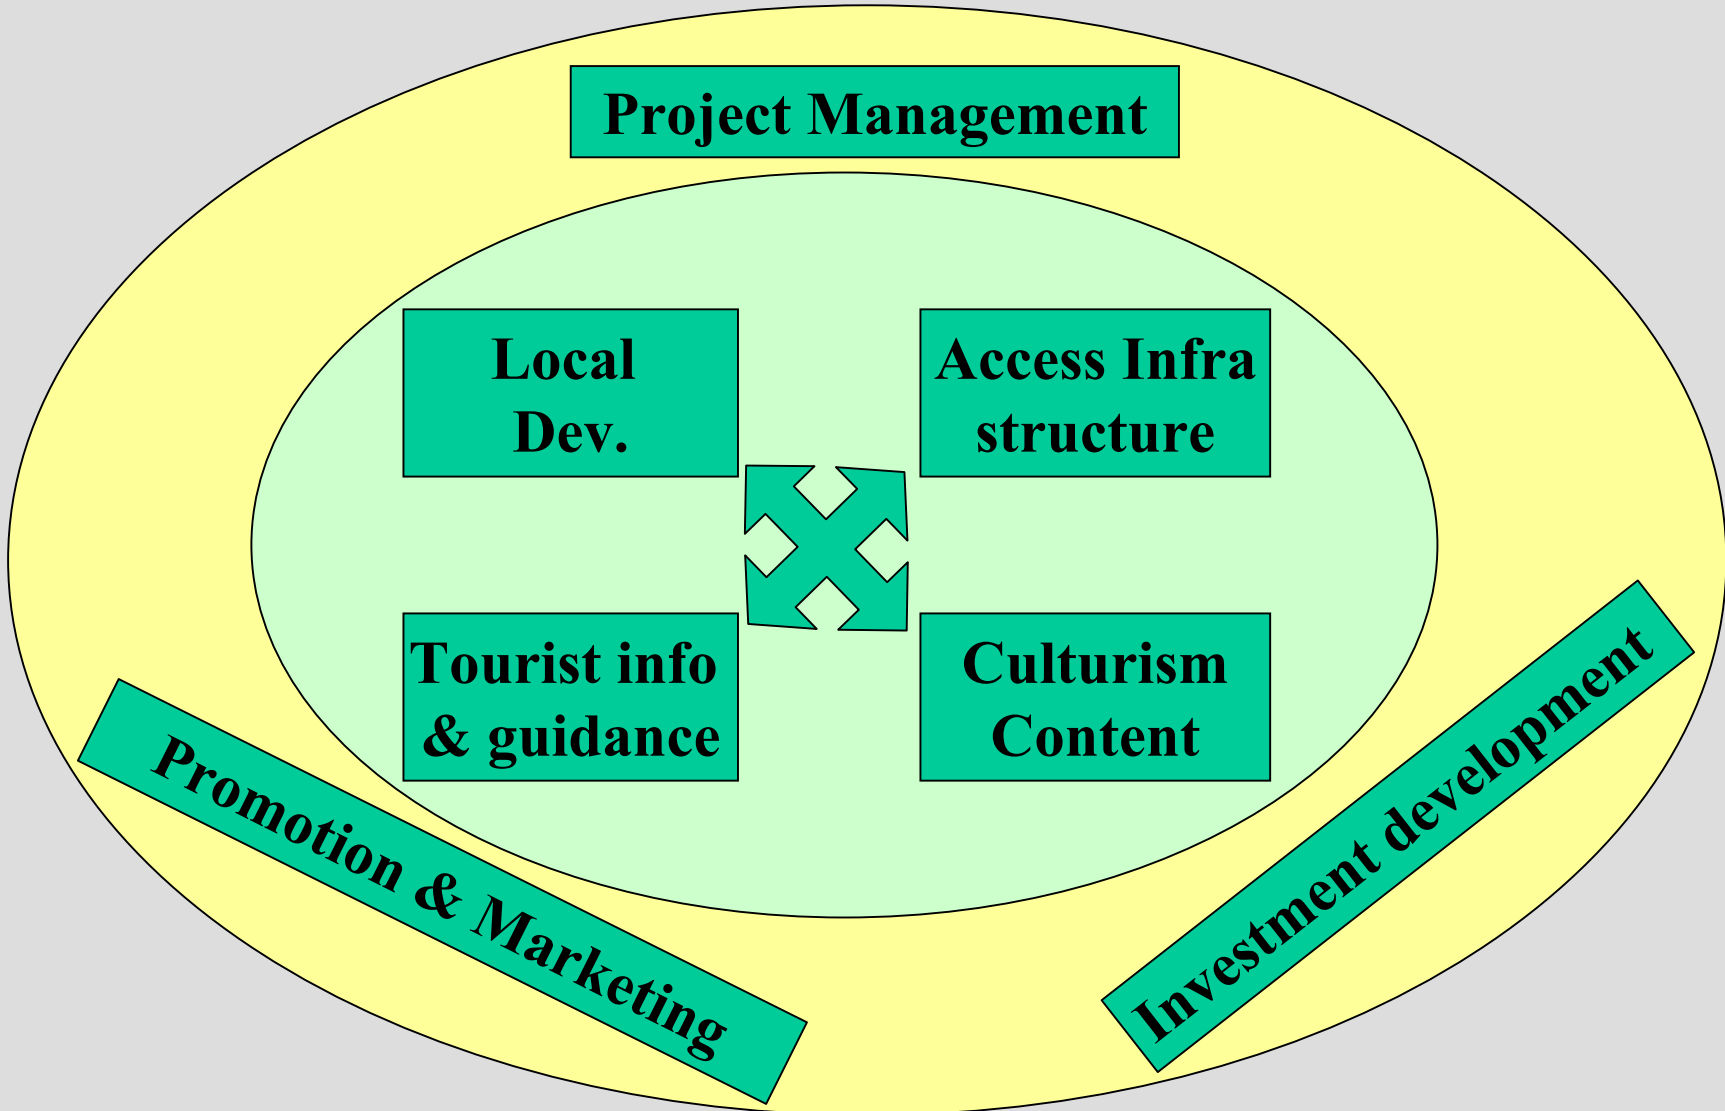

- **to enhance urban economic development of the Danube Cities**
 - by sustainable tourism,
 - by the utilisation of the cultural heritage of the Danube Cities and their conurbation
 - in an integrated approach
 - to market the Danube as a single tourist destination
- the

Destination Danube

- The goal of **Destination Danube** is to enhance urban economic development by sustainable tourism and cultural heritage
- to use an integrated approach to market the Danube as a single tourist destination

- **The objectives**

- utilise cultural heritage by developing cultural routes and local historical sites
- develop an integrated tourism strategy based on best practices for Danube cities link this integrated tourism strategy with local development strategies
- develop standardized plans for access infrastructure and tourist information
- develop high quality action plans and investments
